Engaged Teaching Panel

Tuesday 15th June 2010
12.00pm – 1.30pm
Room G.11, Engineering Civil and Mechanical Building

We know from research evidence that getting students engaged by interaction in class helps promote a deeper approach to learning. But how do we conduct this practice? In this interactive seminar, the panel discussion will showcase the practices of two of our lecturers, Marco Ghisalberti and Margot Jupp, as they describe their approaches to engaged interactive classes.

This lunchtime seminar will be led by

Caroline Baillie
Chair of Engineering Education
The University of Western Australia
Caroline has been recruited as Chair of Engineering Education for the Faculty of Engineering, Computing and Mathematics. Caroline’s role is to enhance the learning experience of engineering students across the Faculty, to support the staff in their teaching, the students in their learning and to facilitate a more scholarly approach to engineering education.

She draws on all areas of higher education research, education development, science education and critical pedagogy to support her research and development work.

Margot Jupp
Adjunct Associate Professor
The University of Western Australia
Margot received her degree in Chemical Engineering from Queen’s University in Canada. Since then, she has worked extensively in the minerals and gas industry.

Marco Ghisalberti
Assistant Professor
The University of Western Australia
Marco is an Assistant Professor for the School of Environmental Systems Engineering at The University of Western Australia. In 2009, Marco implemented team-based learning in his Data Collection and Analysis class.

Notes for participants
Numbers are limited so please register your attendance to Jill Venn on 6488 3518 or by email at jill.venn@uwa.edu.au.

Light lunch and refreshments will be provided.

Registration confirms your attendance at the seminars. You must provide a minimum of two days notice for cancellation.

Registration deadline
Friday, 11th June 2010

Service-Learning across the Disciplines: An Engineering Perspective
The next lunchtime seminar will be a Service-Learning across the Disciplines: An Engineering Perspective seminar on Tuesday 22nd June 2010. Details on this seminar will follow shortly.
