The CEED program at UWA – 25 years of connecting students with industry

LUNCH TIME SEMINAR: 12 AUGUST 2014

12:30pm – 2:00pm
Tuesday 12 August 2014

Oceans Institute Seminar Room G.05, corner Fairway Street and Edwards Street

Speaker

Associate Professor Jeremy Leggoe
A/Prof Leggoe completed a BE (Mechanical) at UWA, working with the then Water Authority of Western Australia upon graduation. After completing his PhD (also at UWA), he worked as a Postdoctoral Research Associate at Los Alamos National Laboratory, working primarily on cooperative research with the Procter & Gamble Company. He then joined the Department of Chemical Engineering at Texas Tech University, and was voted Most Outstanding Professor by the students in 2004, 2007 and 2008. He has served as the Director of the CEED program since joining UWA in 2008, and maintains a Teaching & Research role in the School of Mechanical and Chemical Engineering. A/Prof Leggoe also served as Deputy Dean – External relations for the Faulty of Engineering, Computing and Mathematics from 2011-2013.

Abstract:
The CEED program at UWA is celebrating its 25th year of connecting students with industry for research projects. In this time, it has completed over 400 projects, with a wide variety of private and public enterprise clients. This seminar will discuss the structure of the CEED program, and look at the effect that participating in the program has on the performance of students in their research projects. The opportunities for CEED projects in the current business environment will also be explored.

Notes for participants
There will be a light lunch, refreshments and an opportunity to network informally from 12.30pm followed by the presentations.

RSVP:
Please register your attendance to fase-ecm@uwa.edu.au by Wednesday 7 August.

to use the CEED program to develop their own engagements with industry, thereby enhancing their own teaching and research activities, will also be considered.
